

Here are the agenda items for the TG Summit this year. Please indicate your vote by circling either “Yes” or “No.” There is also a place for your comments. Please feel free to add your comments, especially if you think your vote might change for a particular agenda item if the wording were changed, or some other change might make a difference. As an example, last year one item would have stated that Buckaroos and Buckarettes did not have to address aerial targets. The Fort White vote was against that rule on the grounds that it would teach our youngsters that they didn’t have to play by grownup rules. At the convention the item was reworded (“An alternate target **MUST** be provided for all aerial shotgun targets for Buckaroo and Buckerette shooters.”), and this seemed a very reasonable change, so I felt comfortable voting “Yes” on that item for you.

Therefore, if you have thoughts on how a particular item could be improved, by all means please comment.

The agenda ballet is also up on the website (now fixed) with my own thoughts and interpretation. There is also a link to the video produced by BlackJack Zack on the concept of the “safety cone” (agenda item #1). Please check it out carefully. This is an extremely important item, deserving of your attention. If you do not feel prepared to vote on it at this time, please check out the website first then send me your vote. If you cannot get the link to work, go to the SASS website, under “Quick Links” (lower left hand side) see “Coyote Droppings.” Click on that and see the videos (two of them). The deadline for voting is December 1. I will be leaving for the convention then.

If you have other comments or questions send them to me at: sharp@ufl.edu

The SASS 2009 Territorial Governor's Summit Agenda

1. Should we adopt the circle of safety concept for the drawing and holstering of handguns from all types of holsters? Holsters must still comply with the 30 degree maximum cant from vertical requirement and handgun muzzles must remain within the four foot circle of safety while drawing and holstering.

YES

NO

Comments:

2. Should we allow Bisley Style Hammers mated with non Bisley Style Grips and Bisley Style Grips mated with non Bisley Style Hammers?

YES

NO

Comments:

3. Should we allow the use on adjustable sighted revolvers in all categories except Classic Cowboy and Black Powder Categories? That would be to allow them in the Duelist and Gunfighter category. They are already legal in all age based categories and B Western.

YES

NO

Comments:

4. Should we eliminate the minor safety penalty for overloading a RIFLE? This will do away with the double jeopardy penalty for overloading a rifle. Penalties for leaving rounds in the rifle would still apply but if a shooter over loaded the rifle they could clear within our rules and not be charged a penalty. (The only problem I see would be a rifle reload stage - state all reloads must come from the body.) Note this only applies to a rifle and NOT to a revolver or shotgun.

YES

NO

Comments:

5. Should we create the new sanctioned shooting category "Frontier Cartridge Gunfighter." The category would follow the equipment and ammo guidelines of the current "Frontier Cartridge" category and follow the shooting style requirements of the current "Gunfighter" Category.

YES

NO
